Website Hosting & Email

Tell us about the current website hosting and email situation for this site.

Does the customer currently have a website? *

If Yes, what is the current website URL? (<http://www.example.com>)

Domain to be used for new site (<http://www.example.com>) *

Are there emails connected to the current domain name? (ex. name@yourwebsite.com) *

Website Design Overview

Please be as accurate as possible.

Would you like us to provide a design concept? *

Yes

No, I will provide design PSDs

Would you like us to use colors from your current logo? *

Please give us a brief overview of the following: *

1. What the business is and does?

2. Describe the type of clients it services or provides for?

3. What are the goals of the website? (ex. educate visitors about the business, generate inquiry forms, get newsletter sign ups, etc)

Please list some of the websites that represent the style website the customer would like. Describe what the client likes and dislikes about each example.

Please check any content widgets you want on the homepage

- Image Slider (multiple images/text)
- Hero Image (single image/text)
- About Section (paragraph about business)
- Services Section (highlighting each service offered)
- Products Section (highlighting products)
- Recent Blog Posts
- Testimonials
- Calendar
- Call To Action Stripe w/ Headline-Button
- Contact Form
- Video Section (provided by agency/client)

What are main things you want visitors to see on the home page?

Any special instructions for this project?

Do you have other resources such as wireframes to share? What special functionality is needed on the site? For example: special page movement or effects, parallax, animations, logo galleries, image galleries, calendars, advertising, or other plug ins.

Once you submit this form, be sure to stay on the page until you get a confirmation message to ensure your project details are received.
